### FREEDOR Wireless Fire Door Closer

Freedor is a unique wireless solution that allows users to hold fire doors open at any angle and automatically closes the door when the fire alarm sounds. Installed at the top of the fire door, Freedor is a simple, neat and unobtrusive fire door closer. Easy to install in new buildings and retrofit. Freedor is a wireless device that allows the door to swing freely, be left in any position, but will close the door when the fire alarm sounds.

- Adjustable closing speed
- Wireless technology
- Operates up to power size 4 (80kg fire door)
- Allows a door to free-swing through whole range of movement
- Operates as a normal door until activated

NEW

- Suitable for left & right hand swing doors
- Night time release facility

- Fail-to-safe technology, with minimum battery life of 12-18 months

- Adjustable sensitivity

- Designed to comply with BS EN1154, BS EN1155, BS 7273-4 category B
